CONTENTS.

	Page.
FARMERS' BULLETIN No. 901.—EVERBEARING STRAWBERRIES.	
Desirability of everbearing sorts of strawberries	3
Origin	4
Characteristics and adaptation	6
Soils	8
Fertilizers	8
Time of planting	9
Planting systems	9
Distance of planting	10
Removing blossoms and runners	11
Tillage	13
Mulching	13
Harvesting	14
Yields	14
Varieties	15
FARMERS' BULLETIN No. 902.—THE SILVERFISH OR "SLICKER," AN INJURIOUS HOUSEHOLD INSECT.	
Habits and injury	3
Remedies	4
FARMERS' BULLETIN No. 903.—COMMERCIAL EVAPORATION AND DRYING OF FRUITS.	
Principles and methods of drying	3
Building and equipment for drying	5
Evaporating fruits by artificial heat	23
The sun drying of fruits	43
Equipment for sun drying	45
Details of sun drying	47
Preparing evaporated and dried fruits for market	55
Insects injurious to dried fruits	59
Laws relating to evaporated and dried fruits	59
FARMERS' BULLETIN No. 904.—FIRE PREVENTION AND FIRE FIGHTING ON THE FARM.	
Most fires preventable	3
Fire prevention	4
Fire fighting	11
FARMERS' BULLETIN No. 905.—WAYS OF MAKING SOUTHERN MOUNTAIN FARMS MORE PRODUCTIVE.	
Farming conditions in the mountains	3
Some typical farms	5
Opportunities for special products	7
Suggestions for better management	9
Increasing yields by rotation	10
Importance of manure	19
Improving the management of a small grazing farm	22
Other practical rotations	26
Useful publications	27

FARMERS, BULLETIN No. 906.—THE SELF-FEEDER FOR HOGS. Page.
What the self-feeder is 3
Experimental data 3
Special advantages 6
Hints on the use of the self-feeder 7
Requirements of a self-feeder 9
Plans of self-feeders 10

FARMERS' BULLETIN No. 907.—BEAN GROWING IN EASTERN WASHINGTON AND OREGON AND NORTHERN IDAHO.
Area suited to crop 3
Factors favoring bean production 4
Methods used in bean production 4
Marketing the bean crop 12
Varieties of beans grown 13
Improvement of seeds by selection 13
By-products of the bean-growing industry 15
Conclusions 15

FARMERS' BULLETIN No. 908.—INFORMATION FOR FRUIT GROWERS ABOUT INSECTICIDES, SPRAYING APPARATUS, AND IMPORTANT INSECT PESTS.
Spraying to control fruit insects 3
How insects feed 4
Spraying dormant trees 6
Summer spraying 7
General classification of insecticides 8
Arsenical insecticides 8
Hellebore 16
Powders for dusting 16
Petroleum-oil sprays 28
Soap sprays 36
Bordeaux mixture 38
Tobacco or nicotine insecticides 40
Fumigation of nursery stock, buds, scions, etc 43
Dipping nursery stock, buds, scions, etc 44
Worming fruit trees 45
Mechanical tree protectors 49
Banding for the coddling moth 50
Destruction of insects by jarring 52
Bagging fruits 53
Insect destruction by fire 53
Insect light traps 54
Tree injections 54
Tree-banding materials 55
Treatment of tree wounds 58
Filling tree cavities 58
Pruning 59
Stimulation of growth by fertilization 59
Cultivation 60
Thinning fruit 60
Parasitic and predacious enemies of insects 60
Spraying outfits for small operations 61
Spraying outfits for large operations 64
Dusting apparatus 67
Spraying accessories 68

FARMERS' BULLETIN No. 908.—INFORMATION FOR FRUIT GROWERS ABOUT INSECTICIDES, SPRAYING APPARATUS, AND IMPORTANT INSECT PESTS—Continued. Page.

Standard spray materials and their combinations for summer spraying ---- 73
Spray-dilution table for ready reference ---- 74
Some important insects and their treatment ---- 76

FARMERS' BULLETIN No. 909.—CATTLE LICE AND HOW TO ERADICATE THEM.

Distribution and economic importance ---- 3
Suctorial lice ---- 4
Biting lice ---- 5
Nature and habits ---- 6
Methods of treatment ---- 8
Directions for dipping ---- 11
Dips for cattle lice ---- 14
Dipping plants ---- 17

FARMERS' BULLETIN No. 910.—GAME LAWS FOR 1917. A SUMMARY OF THE PROVISIONS OF FEDERAL, STATE, AND PROVINCIAL STATUTES.

Review of legislation for 1917 ---- 3
Summary of laws relating to seasons, licenses, limits, sale, and export ---- 9
Disposition of game raised in captivity ---- 47
New laws passed in 1917 ---- 49
Lacey Act, regulating interstate commerce in game ---- 57
Tariff act prohibiting importation of plumage ---- 58
Law protecting birds on Federal birds reservations ---- 59
Regulations for the protection of migratory birds ---- 59
Treaty for the protection of migratory birds ---- 64
Canadian migratory birds convention act ---- 67
Officials from whom copies of game laws may be obtained ---- 70

FARMERS' BULLETIN No. 911.—LAWS RELATING TO FUR-BEARING ANIMALS, 1917. A SUMMARY OF LAWS IN THE UNITED STATES AND CANADA RELATING TO TRAPPING, OPEN SEASONS, PROPAGATION, AND BOUNTIES.

Legislation of 1917 ---- 3
Federal laws ---- 5
Laws of States and Provinces ---- 5
Summary of fur protection ---- 29

FARMERS' BULLETIN No. 912.—HOW TO ATTRACT BIRDS IN THE EAST CENTRAL STATES.

Means of attracting birds ---- 3
Protection ---- 3
Breeding places ---- 4
Water supply ---- 5
Food supply ---- 6
Protecting cultivated fruits ---- 13

FARMERS' BULLETIN No. 913.—KILLING HOGS AND CURING PORK.

Selection of hogs for butchering ---- 3
Care before killing ---- 4
Equipment for slaughtering ---- 4
Killing and dressing ---- 6
Cooling the carcass ---- 9
Cutting up hogs ---- 9
Rendering lard ---- 12

FARMERS' BULLETIN No. 913.—KILLING HOGS AND CURING PORK—Contd. Page.
Curing pork 15
Sausage 18
Smoking cured meat 23
Shippers' certificates 27
Economic suggestions 28
Keeping fresh meat 29
A small ice house 29
FARMERS' BULLETIN No. 914.—CONTROL OF THE MELON APHIS.
Nature of attack 3
Description 4
Economic importance 5
Distribution 6
Seasonal history 6
Food plants 7
Natural enemies 8
Methods of control 10
FARMERS' BULLETIN No. 915.—HOW TO REDUCE WEEVIL WASTE IN SOUTHERN CORN.
Corn growing in the South 3
Poor shuck protection results in serous damage 3
Good shuck coverings make ears weevil-proof 3
Earworm damage reduced by good shuck covering 4
The corn-breeder's opportunity 4
A practical system of management 5
Harvesting, sorting, cleaning, and storing 6
FARMERS' BULLETIN No. 916.—A SUCCESSFUL COMMUNITY DRYING PLANT.
Principles used in drying 3
Trays for drying 5
The fan 6
The motor 7
The use of heat in drying 7
Preparation of fruits and vegetables 11
Storing 10
Cooking dried fruits and vegetables 11
Importance of community driers 11
Operation of community driers 12
FARMERS' BULLETIN No. 917.—GROWING PEACHES, SITES, AND CULTURAL METHODS.
Distribution and statistics of peach growing 3
Location and site 4
Temperature a limiting factor 8
Propagation of peach trees 8
Regions from which to obtain trees 10
Trees for planting 10
Time of planting 11
Handling the trees when received from the nursery 12
Preparation of the land 14
Planting the trees 14
Tillage 16
Maintaining the fertility of the soil 20
Irrigation 23
Pruning 23

FARMERS' BULLETIN No. 917.—GROWING PEACHES, SITES, AND CULTURAL METHODS—Continued. Page.
Renewal of the tops 33
Changing the top by budding and grafting 36
Thinning the fruit 37
Control of insect pests and fungous diseases 39
Growing crops between the trees 39
Orchard management and winter injury 40
FARMERS' BULLETIN No. 918.—PEACH VARIETIES AND THEIR CLASSIFICATION.
Varieties of peaches 3
Varieties grown in the United States 4
Comments on the foregoing lists 13
Classification 13
Peen-to race 14
South China race 14
Spanish race 14
North China race 15
Persian race 15
FARMERS' BULLETIN No. 919.—THE APPLICATION OF DOCKAGE IN THE MARKETING OF WHEAT.
What dockage is 3
Equipment for separating dockage 4
Method used in determining dockage 6
Value of dockage 7
Methods of handling dockage 8
Improper application of dockage system 10
Other determinations made on dockage-free wheat 11
Conclusions 11
FARMERS' BULLETIN No. 920.—MILK GOATS.
Present status of the industry 3
Goats' milk 4
Goat dairies 8
Breeds and types of goats 9
Methods of breeding 19
Feed and management 22
Goat meat and goatskins 32
Prices of goats 33
Goat troubles 34
Milk goat registry associations 36
FARMERS' BULLETIN No. 921.—THE PRINCIPLES OF THE LIMING OF SOILS.
Introduction 3
Materials used in liming 3
Lime in soils 7
Effects of liming 8
Farm practice of liming 11
Local grinding or burning 26
What should not be expected of liming 28
Terms used in liming 28
FARMERS' BULLETIN No. 922.—PARCEL POST BUSINESS METHODS.
Needs of business methods in parcel-post marketing 3
Establishing business relations 4
Business relations with customers 10

FARMERS' BULLETIN No. 923.—FUMIGATION OF CITRUS TREES. Page.
What citrus fumigation is 3
Equipment required in orchard treatment 4
Chemicals of fumigation 10
How to generate hydrocyanic-acid gas 12
Fumigation procedure 16
Effect of the gas on the plant 21
Citrus insects and their control 28
Cost of fumigation 30
FARMERS' BULLETIN No. 924.—A SIMPLE WAY TO INCREASE CROP YIELDS.
Economic conditions 3
Important factors in soil improvement 5
Important crops for soil improvement 8
Use of fertilizers 13
Cropping systems 14
Practical measures 17
Examples of soil improvement 18
FARMERS' BULLETIN No. 925.—CABBAGE DISEASES.
Cabbage and other crucifers 3
How the various diseases are disseminated 3
Farm practice and its relation to the control of diseases 6
Important cabbage and cruciferous diseases 9
Clubroot (clubfoot, finger and toe) 9
Root-knot (nematodes) 11
Black-rot (brown-rot, stem-rot, dry-rot) 13
Yellows (yellow-sides, wilt, dry-rot) 15
Black-leg (foot-rot, wilt) 19
Soft-rot 21
Root-rot (wilt) 22
Malnutrition, a physiological disease 23
Downy mildew 25
White-rust 26
Drop 27
Spot disease of cauliflower 27
Black leaf-spot (black mold) 28
Powdery mildew 29
Damping-off 29
